OBJECTIVE

- To work with an organization that provides a motivating work environment, where I can utilize my software, analytical and problem-solving skills for successful career, which will ultimately benefit the organization and society.
- Areas of expertise: **C++ Programming, Data Structures, DBMS, Web Development**

EDUCATION

Bachelor of Technology in Computer Science and Engineering, Darbhanga Nov 2022 - Present
College of Engineering, Darbhanga

- CGPA: 7.82/10.0

Intermediate TULSI VIDYA NIKETAN, Varanasi May 2018 - March 2020

- Percentage: 75.4

TRAINING / INTERNSHIP

Salesforce Developer Virtual Internship Dec 2023- Jan 2024

- Developed Custom Lightning Components, Apex Triggers and Classes and VisualForce Pages.
- Implemented custom Solutions On The Salesforce Platform, Including custom Objects, Fields Formulas, Workflows and Validation rules.

Advance CPP training by IIT Bombay 18th, Jan – 14th Feb, 2024

- Completed a specialized training program in Advanced C++ conducted by IIT Bombay, focusing on high-performance computing, object-oriented design, STL, memory management, and advanced programming paradigms.
- This prestigious course provided deep insights into industry-level C++ practices and enhanced problem-solving abilities, strengthening both technical foundations and coding efficiency.

HTML (Web Development) training by IIT Bombay 18th, Jan – 14th Feb, 2024

- Completed HTML (Web Development) course by IIT Bombay, gaining hands-on experience in HTML5, CSS, and responsive design fundamentals through a structured, instructor-led program.

PROJECTS

Weather App

- In this weather app, Users can get the weather details of a particular city by entering the city name or user can also get their current location weather details by clicking on the “Grant Access Location” button.
- Technology Used: HTML, CSS, Javascript

Attendance Management System using Facial Recognition

- In this project, I've Designed and implemented an automated attendance system leveraging facial recognition technology which will improve accuracy and reduced manual effort compared to traditional attendance systems.
- Technology Used: Python, MySQL , OpenCV , HTML, CSS, Webcam

TECHNICAL SKILLS

Languages: C++, C, Java(Beginner), Python(Beginner)

Web Development: HTML 5, CSS 3, Javascript, PHP, MySQL

Tools and Platforms: Git, Github, VS Code, Code Blocks, Sublime Text

Other Skills: DSA, OS, OOPS, DBMS, MS Office

COURSES and CERTIFICATIONS

Advanced Cpp Training: Strengthened advanced C++ skills via IIT Bombay's training, applying complex programming techniques to solve real-world problems efficiently..

Programming Essentials in C++: Completed Programming Essentials in C++ by Cisco, covering object-oriented programming, classes, inheritance, and C++ standard libraries..

Programming Essentials in C: Acquired strong foundational skills in C through Cisco's Programming Essentials course.

HTML (Web Development):HTML (Web Development) Completed HTML (Web Development) course by IIT Bombay, gaining foundational skills in creating structured, responsive web pages using HTML5 and modern web standards.

Introduction to Networks:Completed Introduction to Networks by Cisco, gaining foundational knowledge of networking concepts, protocols, IP addressing, and network troubleshooting.

Cybersecurity Essentials:Completed Cybersecurity Essentials by Cisco, gaining foundational knowledge in cybersecurity principles, network security, threat mitigation, and risk management.
